

SM-27S

Machete Turboprop

For COunter-INsurgency

Created for COIN, the single-seat SM-27S is the affordable, high performance single-seat COIN/CAS/FAC solution. Designed by Americans, the SM-27S is an all new, from-the-ground-up light attack aircraft.

- Heavily armored, battle-hardened war machine
- Fixed 30 mm cannon and eight external stores hardpoints
- 6,500 lbs of external loads while maneuvering at 7.5 g.
- Turboprop (SM-27S/T) and Turbofan (SM-27J/L) variants
- Single seat strike and two seat tandem configurations
- Designed for continuous operations within harsh environments
- Minimal support requirements.

Only the Machete will combine precision firepower with extreme survivability, performance, integrated avionics/EW and economy.
