Eagan, MN 55123

Dear Mr. Beskar:

I enjoyed meeting you at the recent AIAA Technical Committee on Management dinner meeting in Pasadena, California.

Welcome to our group. I have been associated with the AIAA TCM for over a decade, and I will assure you that you will find the group's goals to be challenging and interesting. You are a great, youthful addition to the committee.

I have included two papers as promised. Both should be relevant to your needs.

Respectfully,

John C. Howe, Ph.D.
S&EG Director of Process Management
Office of the Chief Engineer
