Stavatti Enters into Formal Relationship with CMC Electronics

On November 18th Stavatti Aerospace entered into a formal business relationship with CMC Electronics Aurora, Inc. of Sugar Grove, IL. CMC Electronics designs and produces leading technology electronics products for the aviation and global position markets. The manufacturer of the Sparrow Hawk and Night Hawk Head Up Display (HUD) systems, CMC Electronics is a primary supplier of primary and secondary display systems for military fast jets and turboprop trainers.

Stavatti Aerospace has selected of the Night Hawk HUD as one of three primary Visual Flight Reference instruments that customers will be able to choose for the Machete family of next generation COIN/CAS/ADF aircraft. Stavatti is also exploring the selection of the CMC Cockpit 4000 as a standard integrated cockpit display suite for the Machete family. Stavatti and CMC have begun a formal exchange of engineering data to begin the integration of CMC display systems into the Machete design.

Stavatti CEO Christopher R. Beskar is serving as the primary Point Of Contact for CMC Electronics Industry Team Integration with Stavatti's Buffalo, NY office serving as the primary point of liaison.

Stavatti Aerospace is an innovative aerospace defense enterprise focused on the design, development, and production of next generation aerospace vehicles. Stavatti Aerospace is a division of Stavatti Corporation, a privately held American Corporation with a CAGE Code of 1DRG1.
