STAVATTI AEROSPACE LTD Cost Per Flight Hour (CPFH)

DATASHEET SM-47 T-X

NATO/EXPORT Configuration: SM-47 T-X PDC 01

This DATASHEET provides ROM (Rough Order Magnitude) Cost Per Flight Hour (CPFH) and Typical Aircraft Squadron Strength (TASS) projec tions for the SM-47 T-X aircraft as prepared by Stavatti Aerospace Ltd. CPFH/TASS projections assume aircraft operation within a typical USAF squadron environment, with all cost accounting variables derived from historical USAF operations and readiness statistics. CPFH values will differ for non-USAF operational environments, including all service conducted in NATO/allied air forces. CPFH and TASS projections contained herein are ROM estimates for Long Range Planning (LRP) purposes and are not contractually binding. CPFH values are subject to change based upon FH/PAA, aircrew, fuel, maintenance and additional variable costs.

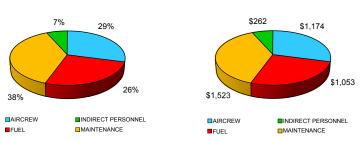

SM-47 T-X CPFH: \$4,012 (2022 USD)

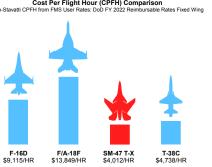

AIRCRAFT: SM-47 T-X

MISSION: Strike Fighter/Advanced Pilot Trainer AIRCREW: 2 (Two Seat Tandem) MMH/FH: 5.88

ANNUAL FLIGHT HOURS (FH/PAA): 350 AIRCRAFT PER SQUADRON: 12 CREW RATIO: 1.5 **MEAN FUEL CONSUMPTION (GPH): 263**

SM-47 T-X Cost Per Flight Hour (CPFH)		SM-47 T-X Typical Aircraft Squadron Strength (TASS)		
COST ELEMENT	COST	PERSONNEL DESCRIPTION	PER AIRCRAFT	PER SQUADRON
Aircrew:	\$1,174			
Fuel:	\$1,053	Aircrew:	2	36
Direct Maintenance Personnel:	\$858	Ground Crew & Maintenance:	9	103
Consumable Materials:	\$147	Squadron Staff:	1	10
Indirect Support Personnel:	\$262	Weapon System Security:	1	15
Spares:	\$306	Base Operations Personnel:	1	12
Depot:	\$211			
		TOTAL PERSONNEL:	14	176
TOTAL CPFH:	\$4,012			
	. ,	# OF AIRCRAFT:	1	12

DEFINITIONS & NOTES:

AIRCREW: Assumes Crew Ratio of 1.5 with FH/PAA=350. Aircrew salary assumes pay rate for USAF O-3 (Captain) with 8 years experience and inclusion of Hazardous Duty Pay, Subsistence and Housing Allotments.

AIRCREW: Assumes Crew Ratio of 1.5 with FH/PAA-350. Aircrew salary assumes pay rate for USAR C-3 (Captain) with 8 years experience and inclusion of Hazardous Duty Pay, Subsistence and Housing Allotments. FUEL: Assumes a mean fuel consumption of 263 Gallons Per Hour (GPH) of JP-8 per mission Flight Hour (FH) at a cost of \$4.00/Gallon based upon Dob bulk fuel purchase of \$6.95 Billion for 44.45 Million Barrels of JP-8 in 2013 adjusted for inflation and rounded-up to the nearest dollar value for cost normalization purposes. DIRECT MAINTENANCE PERSONEL: Assumes A Maintenance Labor Rate of \$100.00/Hour. MMH/FH: MMH/FH definitions are for Low Rate Initial Production (LRIP) aircraft. Actual MMH/FH may decrease by up to 35% over aircraft operational service life based upon maintenance parctices and crew experience. TASS: TASS values are based upon a hypothetical USAF ACC Upical squadron structure as projected by STAVATTI. Actual TASS may vary by +/50%, particularly when non-DoD service (allied export) squadron and support structures are considered. Actual TASS values are based upon service branch organizational procedures, practices and defense force culture. CPFH PRESENTATION: CPFH values are presented in a manner to provide greater specificity with regard to elements of aircraft operations of therwise on some USAF CPFH modes. USAF CPFH projected costs unchin may be omitted/otherwise considered, in some USAF CPFH models. USAF CPFH projected costs often identified with SDS, SDD and DLR are included within the blanket "MAINTENANCE" category. Contractor Logistical Support forcew shich may especified proceed source and upper advected by a structure as projected during force personnel. Ground-crew (including aircraft ammament crew) is included as an element of MAINTENANCE. All CPFH values presented herein are ROM projections which are subject to alteration and change based upon actual, empirical data to be derived during flight test and initial operations.
