STAVATTI AEROSPACE LTD Cost Per Flight Hour (CPFH)

DATASHEET SM-28T Machete

NATO/EXPORT Configuration: SM-28S PDC 01

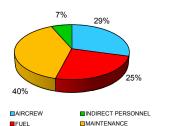

This DATASHEET provides ROM (Rough Order Magnitude) Cost Per Flight Hour (CPFH) and Typical Aircraft Squadron Strength (TASS) projections for the SM-28T aircraft as prepared by Stavatti Aerospace Ltd. CPFH/TASS projections assume aircraft operation within a typical USAF squadron environment, with all cost accounting variables derived from historical USAF operations and readiness statistics. CPFH values will differ for non-USAF operational environments, including all service conducted in NATO/allied air forces. CPFH and TASS projections contained herein are ROM estimates for Long Range Planning (LRP) purposes and are not contractually binding. CPFH values are subject to change based upon FH/PAA, aircrew, fuel, maintenance and additional variable costs.

SM-28T CPFH: \$4,000

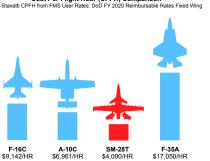

AIRCRAFT: SM-28T MISSION: Close Air Support (CAS) AIRCREW: 2 (Two Seat Tandem) MMH/FH: 6.56

ANNUAL FLIGHT HOURS (FH/PAA): 350 AIRCRAFT PER SQUADRON: 12 CREW RATIO: 1.5 MEAN FUEL CONSUMPTION (GPH): 246

SM-28T Cost Per Flight Hour (CPFH)		SM-28T Typical Aircraft Squadron Strength (TASS)		
COST ELEMENT	COST	PERSONNEL DESCRIPTION	PER AIRCRAFT	PER SQUADRON
Aircrew:	\$1,174			
Fuel:	\$984	Aircrew:	2	39
Direct Maintenance Personnel:	\$957	Ground Crew & Maintenance:	10	124
Consumable Materials:	\$164	Squadron Staff:	1	11
Indirect Support Personnel:	\$262	Weapon System Security:	1	16
Spares:	\$272	Base Operations Personnel:	1	13
Depot:	\$188			
		TOTAL PERSONNEL:	15	203
TOTAL CPFH:	\$4,000			
CPFH Values are in 2017 USD	, ,	# OF AIRCRAFT:	1	12

DEFINITIONS & NOTES:

AIRCREW: Assumes Crew Ratio of 1.5 with FH/PAA=350. Aircrew salary assumes pay rate for USAF O-3 (Captain) with 8 years experience and inclusion of Hazardous Duty Pay, Subsistence and Housing Allotments

AIRCREW: Assumes Crew Ratio of 1.5 with FH/PAA=350. Aircrew salary assumes pay rate for USAF O-3 (Captain) with 8 years experience and inclusion of Hazardous Duty Pay, Subsistence and Housing Allotments. FUEL: Assumes a mean fuel consumption of 246 Galions Per Hour (PH) of UP-8 per mission Flight Hour (FH) at a cost of \$4.00/Galion based upon DoD builk fuel purchase of \$6.95 Billion for 44.45 Million Barrels of JP-8 in 2013 adjusted for inflation and rounded-up to the nearest dollar value for cost normalization purposes. DIRECT MAINTERNANCE PERSONNEL: Assumes a Maintenance Labor Rate of \$100.00/Hour paircred. Actual MMH/FH: Meinflions are for Low Rate Inflial Production (LRF) aircred. Actual MMH/FH: May decrease by up to 35% over aircraft operational service life based upon maintenance practices and crew experience. TASS: TASS values are based upon a hypothetical USAF ACC Uppical squadron structure as projected by STAVATTI. Actual TASS may vary by +/.50%, particularly when non-DoD service (allied export) squadron and considered. Actual TASS values are based upon regarizational proceedures, practices and defense force culture. CPFH PRESENTATION: CPFH values are presented in a manner to provide greater specificity with regard to elements of aircraft operations costisten of ansone USAF CPFH models. USAF CPFH cost factors including GSD, SDD and DLR are not individually identified. The projected cost often identified with GSD, SDD and DLR are not individually identified. The projected cost often identified are force with Gatery or (included with Busport Statuce). CorFH values presented herein are ROM projections which are subject to alteration and change based upon actual, empirical data to be derived during flight test and initial operations.
